

ROAD MASTER'S REPORT

For the month of July 2020

Roadwork:

1. Vestal Asphalt crack sealed Hillside, Red Rock, Fall Run (lower), Spencer, Country View, Emory, PA Ave, East, Vine, Burgess, Susquehanna, Sullivan, Lundy, Claerack, Pond Hill, Schmeig, and our new office lot All completed on 07/02/20
2. Weed trimmed Glen bridge, Fall Run and Mercur Hill intersection, Wysox side of Towanda Bridge, and under guide rails by Darazias.
3. Installed 3 french drains 2 on Allen Road and one on Glen Rd.
4. Purchased 2.61 ton of cold patch. Patched holes on Claverack, Hollenback, Post, Grimes, Pond Hill, Fall Run (upper), Allen, Old Sawmill, Glen
5. Cut trees that had fallen after storms, also picked up smaller limbs
6. Had trees fall into stream on Dry Run again cut and pulled out of stream
7. Rotted tree between our launches had fallen, pulled stump out and filled hole.
8. Weed trimmed and mowed Lake Rd below Hillside for visibility to pull out of Hillside
9. Penn Dot tar and chipped PA Ave and East our intersection had a lot of loose stone cleaned up and weed trimmed that intersection
10. Pulled out 11 concrete barriers along Laning creek at our boat access rd and stacked R-rock along that section. Brought back all barriers back to shop and stacked near millings pile
11. Bermed Claverack and cleaned under guide rails using backhoe and shovel
12. Brought nearly 20 loads of DSA from Laning creek property to our building.
13. Put DSA in holes on dirt part of Grimes Road

Trucks and Equipment:

1. Replaced Hydraulic tank on truck #4

2. Replaced right lower tail light on Truck #1
3. Checked fluids before each use
4. Washed trucks 1,2,3 and also washed backhoe and tractor
5. New truck #2 had 2 recalls, took to Ferrario Auto Center. Recalls were Engine control module and Body control module
6. Changed Oil and filters on tractor & truck 1
7. Replaced rear brakes and rotors on truck #1. While doing so, we had to pull the axle and noticed one side had seal leaking, so we also had to replace bearings and seals

Office, Shop, Pavilions

1. Assembled 5 heavy duty trash cans and 2 permanent outdoor grills. Installed those 2 grills at new pavilion using concrete, put 2 trash cans at each pavilion and 1 between launches. They are cabled and locked
2. Took loaner tables back to Fire Company and installed new tables under our new pavilion. They are also chained and locked
3. Leveled off parking area (donuts again)
4. Cleaned under concrete tables also had to lift one and re-level it
5. Pressure washed our building, shop and new office. Cleaned out gutters at new building
6. Went to com-center to pick up 3 gallons of hand sanitizer and masks.
7. Hicks electric fixed lights and wiring at old building
